## PALM TREE CRAFT

1. Color the leaves of the palm tree at the top of this side.
2. Turn this page over and color the trunk of the tree. The trunk will be the lower portion of the page up to where you colored the leaves on the other side.
3. Cut along the dotted lines on this side of the page.
4. With the colored leaves side up, roll the paper from left to right to create the trunk of the palm tree.
5. Use transparent tape to keep the rolled-up trunk together.
6. Bend down and fan out the leaves of the palm tree. Make the outer leaves bend down farther than the inner leaves.
